

Facts About RFIs

Questions asked range from 10 to 285 depending on project.

Sample RFI Questions?

- Identify distribution lines and substation(s) serving the site, and site distance from substation(s).
- Please provide a basic "all-in" preliminary electric rate estimate per kWh (inclusive of fees, tariffs, estimated demand etc.) based on the following estimated usage: Capacity & Peak Demand: 5,000 amps, assume 70% load factor
- Sq. Ft. (Breakdown office sq. ft., manufacturing sq. ft., etc.)?
- Ceiling height at eaves and in middle?
- What are the Bay Spacing measurements?
- How many drive in dock doors are there? What are their dimensions?
- Describe Floor Thickness in building?

RFI Life Cycles

- Most RFI's due dates are less than 3 to 5 days of being notified of inquiry.
- RFI's are "active" for only weeks to 6 months or more.
